

Aqua Cutter 410A Robot

Model / Technical Details	HVD
Pump Spec. W.P bar / PSIFlow Lpm	2200 bar / 100 Lpm or 1400 bar / 78 Lpm
Engine Spec. Type Emission system Power Kw / Electric Information	Electric motor 3 phase 5,5 kW 400 VAC 16A
Dimensions L x W x H mm / Weight kg	2.1m x 0.78m x 0.99m / 1190kg

Features:

- The world's smallest standard manufactured hydrodemolition robot
- Replaces the traditional method of hand-lancing
- Lightweight model allowing for use on structures such as scaffolding
- The robot has an articulated arm which has two rotating joints and three extensions which can reach up to 3m (9,8ft) making horizontal, vertical and overhead work easier than ever before
- Easily adjustable stroke setting to improve concrete removal
- Less downtime for maintenance work
- Versatile to be used for a range of Hydrodemolition tasks
- Can be controlled wirelessly
- Equal distance system
- Demountable for hard to use areas

Accessories

PCM Carrier

Company Profile:

Hydroblast's experience in the high pressure water jetting industry has enabled us to gain access to a range of water jetting pumps and accessories, suitable for numerous applications in the industrial and marine industries.

Hydroblast can supply complete packages to end-users as well as bare shaft pumps and parts. Our main goal is to supply quality products at a competitive price level.
